

THE BRIGHTEST & BEST LED LIGHTS.

SEEING IS SAFETY.

Work Truck Products » **2025 Catalog**

How do you make sure you *command work zone attention?* Choose Opti-Luxx.

Threats appear from all directions. Therefore, safety lighting should too.

Opti-Luxx is the leading provider of bumper-to-bumper, inside-and-out work truck lighting options. Our vast lineup of LED products secures a **360-degree** shield of bright and dependable lighting protection to make sure you stay highly visible and safe from **every side**.

We offer this comprehensive lineup of products because we work closely with fleets, partnering to innovate and bring to market the best lighting products—delivered on time, with the industry's best quality and customer service reputation.

This catalog features some of our most popular products, ready to install today to improve your visibility and safety out on the road. As always, please don't hesitate to reach out to us with any questions, or to discuss the customization of products to meet your specific needs.

Need quick answers or additional details on any of our products in this catalog?

Visit Opti-Luxx.com/Products for full product information.

You're covered when you choose Opti-Luxx.

The OPTI-360 initiative is a commitment to offer a shield of lighting safety around the entirety of your vehicle.

Opti-luxx

THE BRIGHTEST & BEST LED LIGHTS.

The Opti-Luxx Story begins over twenty years ago, when we pioneered the use of LED lighting technology in commercial vehicle applications by developing the first LED school bus lights, making sure our kids had the safest transportation possible. From there, we expanded that same technology to deliver safety and performance for commercial fleets — with the **brightest and best** lighting to illuminate dark work environments and cut through the visual clutter on roadways to **command visual attention**.

We take very seriously, our core value that **Seeing IS Safety**. We ensure our lighting products fulfill the safety and market needs of people and businesses in our community and beyond. We provide our customers the best in product development, application engineering, program management and launch support for new and existing products. Our lighting portfolio considers all sides of the vehicle, forming a 360-degree shield of bright and dependable lighting protection for all roadway scenarios.

As we continue to develop new products and innovate new ways to command visual attention for commercial vehicles, we are proud to be the leading full-service supplier of LED commercial vehicle lighting. The products you receive from Opti-Luxx will meet or exceed your expectations for quality and delivery — **today, and down the road**.
